HAPPY
New Year

2020 was a year of change, transition and growth for TGI! Thank YOU for being a part of our family and for contributing to the successful execution of our mission! We made a few important changes to enable uninterrupted operations during the pandemic. We empowered our staff and speakers to meet our students' continued training demands which included:

- Implementation of an online platform to deliver leadership training to our Moton Fellows and Emerging Leaders.
- Created the TGI Café, an online platform which included subject matter experts in current areas of public discourse. Our Café events include:
 - o The Brown Bag Series
 - o The Moton Forum
- Refreshed our online presence resulting in increased social media and website traffic, as well as new donors. We received over 8000 new website visits this year!

In addition to the introduction of our online learning platform, we've made tremendous progress in preparing our property for post-pandemic operations. As a result of our efforts and your support, we did not skip a beat, and we were able to continue operations with excellence, as if we were on campus. We are excited for 2021, especially as we continue our critical mission of developing students through our partnership with you. We look forward to a return to normal operations once it's safe to do so.

Emerging Leaders Program Elements of Style January 8-9, 2021

2019 Elements of Style student essay feedback session

Emerging Leaders will be joined by experts in practical and technical writing in a curated writing session. Student leaders will develop and polish their writing skills as they construct a professional persuasive essay. By the conclusion of this session, students will understand how to write effectively and persuade a reading audience through editorial writing. A panel of judges will evaluate the final submissions and the student with the highest score will receive a cash prize.

TGI Fun Fact: Hampton Institute students built Holly Knoll. After Dr. Robert Russa Moton retired, out of gratitude for a life of public service, the corporate community gave Dr. Moton the resources to build Holly Knoll at Cappahosic. Dr. Moton enlisted the service of Hampton students to actually build the structure.
